PRESTO AQUA LUX

Lube Free Air Turbine Handpiece with LED and Water Spray

PRESTO AQUA LUX enhanced functionality with LED light has been introduced as part of the new line up of the PRESTO AQUA product range used for a wide range of dental laboratory applications: from precision cutting of high-strength ceramics to working with alumina and zirconia, requiring a water spray coolant.

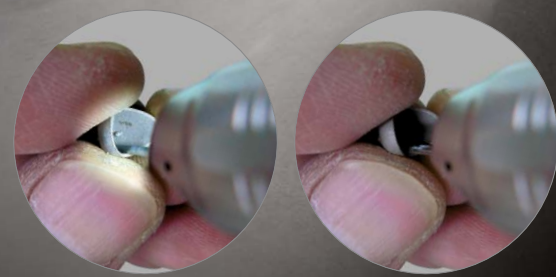

The PRESTO AQUA LUX with LED is a single device that covers all of the delicate and varied operations in the dental laboratory, assuring high performance and adjustability.

Advantages of using LED

Clearer: LEDs generate natural daylight quality light which assures clearer vision when compared to halogen light.

Durable: LED light sources are longer lasting and more durable than halogen bulb.

Safer: LED light is safer as it generates less heat than a halogen bulb. Natural daylight quality LED light is easy on the eye.

LED light

Non-Optic

LED light enables you to work more efficiently

- Accurate lighting at the point of operation does not hide any detail, allowing you to focus on your work more easily.
- NSK LED is equivalent to daylight: it is easy on the eye, reflecting true coloring.
- LED illuminates fine unevenness and air bubbles of the internal frames which can not be illuminated under the normal bench lighting, thus dramatically improving the quality of internal adjustments.
- Enables fine recontouring effectively.
- Enables precise work and materials assessment under the microscope, which improves efficiency and reduces fatigue.

Easy adjustment of the water coolant spray, LED light and air spray

It is possible to adjust the intensity of the LED, water coolant flow and spray air seamlessly. This adjustability is particularly useful when working with a wide range of materials and allows you to choose the most appropriate setting for your work at any time.

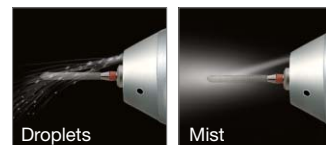

● Adjustment of LED light

It is possible to adjust the LED light in order to prevent light reflection and to set the most appropriate light volume for particular working conditions.

● Water Coolant Options

The water coolant can be seamlessly adjusted from water droplets to a fine water/air mist spray. Both the volume of water and the spray air can be adjusted independently to achieve the ideal working conditions for any material and application: very fine minimal water spray used for preventing micro-cracks to higher volume of water spray used for flushing away debris during cutting.

PRESTO AQUA LUX **Optic**

Lube Free Air Turbine Handpiece with LED and Water Spray

MODEL PR-AQL Hose ORDER CODE Z1050
• LED incorporated

MODEL PRA-LUX-HP ORDER CODE T1002

- 320,000 min⁻¹
- Coolant solution spray
- Requires no lubrication
- Swivel twist-free handpiece
- Low noise and vibration
- Unique dust-proof mechanism

MODEL PRESTO AQUA LUX (120V) ORDER CODE Y1001199

MODEL PRESTO AQUA LUX (230V) ORDER CODE Y1001151

- Contents • PRESTO AQUA LUX Control unit • PRESTO AQUA LUX handpiece • PR-AQL Hose
• Foot control (AFC-40) • Secondary hose for PRESTO • Handpiece stand
• PRESTO AQUA LUX Cord (120V/230V) • AC Adaptor

- Simple and easy removal of the water bottle
- Seamless adjustments of LED light intensity, water volume and spray air
- On-Off function of LED light and water coolant spray • Capable of running independently with the incorporated water bottle or connected to mains water supply

PRESTO AQUA II **Non-Optic**

Lube Free Air Turbine Handpiece with Water Spray

MODEL QD-J B3 ORDER CODE T354051
• PRESTO AQUA coupling

MODEL PRA-HP ORDER CODE T816

- 320,000 min⁻¹
- Coolant solution spray
- Requires no lubrication
- Swivel twist-free handpiece
- Low noise and vibration
- Unique dust-proof mechanism

MODEL PRESTO AQUA II ORDER CODE Y150023

- Contents • PRESTO AQUA II unit • PRESTO AQUA handpiece • QD-J B3 coupling
• Hose for PRESTO AQUA II • Foot control (AFC-40) • Secondary hose for PRESTO

- Simple and easy removal of the water bottle
- Seamless adjustments of water volume and spray air • On-off function of water coolant spray
- Capable of running independently with the incorporated water bottle or connected to mains water supply

PRESTO II **Non-Optic**

Lube Free Air Turbine Handpiece

MODEL PR-HP ORDER CODE T815

- 320,000 min⁻¹
- Requires no lubrication
- Low noise and vibration
- Unique dust-proof mechanism
- Lightweight and compact

MODEL PRESTO II ORDER CODE Y150022

- Contents • PRESTO II unit • PRESTO handpiece • Handpiece stand
• Hose for PRESTO • Foot control (AFC-40) • Secondary hose for PRESTO
